FEATURED PLANTS FOR FRIENDS OF LAC LAWRANN 2025 PLANT SALE

NATIVE PERENNIALS

ASCLEPIAS *incarnata* (Swamp or Red Milkweed)
A good wetland plant. Grows from 3' to 4' in full sun. Great plant for attracting butterflies and pollinators.

ASCLEPIAS *sullivantii* (Prairie Milkweed)
The food source for Monarch butterflies. We are encouraged to plant some to help the butterflies' diminishing population. Grows in full sun, blooming June-August. Good in prairies and meadows but can be aggressive. Height 24" – 36"

ASCLEPIAS *tuberosa* (Butterfly Weed)
A great plant to attract butterflies and pollinators. Grows in full sun. Good in prairies. Height 24" – 36"

ASTER *azureus* (Sky Blue Aster)
Brilliant blue to lavender flowers with sharp-toothed gray-green foliage. Blooms August-September. Height 12" – 18"

ASTER *nova-angliae* (New England Aster)
Narrow foliage on woody stems with flat-clustered sprays of blue to violet purple flowers blooming in September–October. Grows in well-drained soil in full to part sun. Height 48" – 60"

Note: Trim Asters back by half in June for denser growing habit and more flowers. They attract birds, butterflies and pollinators.

BAPTISIA *australis* (Blue Wild Indigo)
Good clump-forming habit with open spikes of indigo-blue flowers. Blooms in June and should be cut back by 1⁄3 to maintain growing habit after flowering. Good in full sun in a prairie or mass planting and attracts butterflies and pollinators. Height 3'

ECHINACEA *pallida* (Pale Purple Coneflower)
Upright habit, smooth-edged, lance-shaped foliage with narrow, drooping pink petaled flowers. Blooms June-July. Use in prairie or border garden.

ECHINACEA *purpurea* (Purple Coneflower)
Long-blooming with decorative seed heads. Use in prairie, woodland edge or border garden. Attracts birds, butterflies, bees.

GENTIANA *andrewsii* (Bottle Gentian) **LIMITED SUPPLY**
Lance shaped foliage, dense clusters of closed tubular dark blue flowers. Blooms attract bees from August–September. Grows in rich, wet to moist soil in part shade to part sun. Height 10" – 22"

LIATRIS
LIATRIS *aspera* (Rough Blazing Star)
LIATRIS *ligulistylis* (Meadow Blazing Star)
LIATRIS *pycnostachya* (Prairie Blazing Star)
LIATRIS *spicata* (Dense Blazing Star)
A good prairie or meadow plant with attractive spikes of dark violet flowers. Grows in full sun and blooms July through August. Attracts birds, hummingbirds, butterflies, and many other pollinators. Height of 3' - 5'

MONARDA *fistulosa* (Wild Bergamot) **REPEAT**
Grows in rich , moist to well-drained soil in full sun to part sun. Light to dark lavender-lilac flowers attract bees, butterflies and hummingbirds. Use in meadow, woodland edge, shade or border garden. Height 2'-4'

PARTHENIUM *integrifolium* (Wild Quinine)
Large rough-toothed foliage, flat-topped clusters of small white flowers. Clump-forming habit. Grows in full sun in rich, well-drained soil. Height 12" - 18"

RUDBECKIA *fulgida speciosa* (Showy Black-eyed Susan)
Long blooming with a clump-forming habit. Has deep gold flowers blooming June-October. Deadhead to reduce seeding. Use in prairie, meadow, and border gardens. Attracts birds and butterflies. Height 2' – 3'

RUDBECKIA *hirta* (Black-eyed Susan)
A biennial with bright yellow flowers blooming in July-August. Use in prairie, meadow, woodland edge or border garden. Attracts birds. Height 2' – 3'

VERNONIA *gigantea* (Giant Ironweed)
Upright habit, lance shaped foliage with flat-topped clusters of magenta flowers blooming in August – October. Grows in rich, moist to wet soil in full to part sun. Attracts bees and butterflies. Height 60" – 72"

NATIVE FERNS

ADIATUM *pedantum* (Maidenhair Fern)
Delicate fan-shaped fronds. Grow in rich moist soil and full to part shade. Height 12" – 18"

ATHYRIUM *filix-femina* (Lady Fern)
Great in a shade or woodland garden with bright green, fine-textured fronds. Height 1' - 3'

ONOCLEA *sensibilis* (Sensitive Fern)
Light green pinnate fronds. Grows in moist soil in shade. Height 18" – 24"

OSMUNDA *cinnamomea* (Cinnamon Fern)
Dark green fronds with cinnamon-brown upright, fertile "cinnamon sticks". Likes rich moist to wet soil in part shade to part sun. Height 2' – 5'

OSMUNDA *regalis* (Royal Fern)
Upright clump-forming habit with loose-textured, coppery fronds maturing to dark green. Grows in rich, wet to moist soil in full shade to full sun. Height 2' – 5'

POLYSTICHUM *acrostichoides* (Christmas Fern)
This fern stays green well into winter and grows well in full to part shade. Height 18" – 2'

NATIVE GRASSES

BOUTELOUA *curtipendula* (Side Oats Grama)
Gray-green, fine-textured foliage, turning orange/golden brown in fall. Sprays of one-sided purplish spiked flowers blooming in August-September. Grow in part sun to part shade. Late to emerge in spring. Height 20" – 24"

CAREX *muskingumensis* (Palm Sedge)
Light yellowish-green palm frond-like foliage. Spikes of golden-brown flowers in May-June. Turns yellow with first frost. Grows in rich moist soil in full sun to part shade. Good in water garden, bog garden or woodland garden. Height 18" – 24"

CAREX *pensylvanica* (Pennsylvania Sedge)
Creeping, tufted habit. Soft, dark green foliage, short spikes of brown-reddish purple flowers. May go dormant in hot, dry summers. Grow in rich, well-drained soil, part sun to part shade. Height 6" – 8"

CAREX *platyphylla* (Broad Leaf Sedge)
Broad green to blue-green foliage. Grows in part sun to part shade in dry to moist soil, but prefers dry soil once established. Height 8" – 12"

SPOROBOLUS *heterolepis* (Prairie Dropseed)
Grows in clump-forming upright habit. Blooms in August-September with airy spikes of pale pink flowers maturing to seed heads of golden yellow. Emerald green foliage turns orange and red in fall. Late to emerge in spring. Good in a border or prairie garden and for mass plantings.

NATIVE SHRUBS/TREES

CEPHALANTHUS *occidentalis* (Button Bush)
Deciduous native shrub known for fragrant white flowers blooming in summer. Dark glossy green leaves with pointed tips. Thrives in moist conditions – swamps, stream/river banks, lake shores. Attracts birds, pollinators, wildlife. Height 6' – 12'

SALIX *discolor* (Pussy Willow)
Catkins bloom on bare stems before leaves appear in early spring. Critical source of pollen for bees early in the season. Grows in damp to moist soil in full sun. Can grow to 20 feet.

SAMBUCUS *canadensis* (Black Elderberry)
Good plant to use as sprawling hedge, as screen or by streams/ponds or low spots. Lemon scented white flowers bloom June – July. Grows in medium moist soil in full sun to part shade. Suckers. Attracts birds & butterflies. Height 5' – 12'

CARYA *ovata* (Shagbark Hickory Tree)
Native deciduous tree known for its distinctive shaggy bark as it gets older. Fruit (hickory nuts) are rather small, and it can take over 20 years for fruit to materialize. Grows in full sun in medium wet to medium dry soil. Height at maturity can be 60' – 90'.

GARDEN PERENNIALS

ASTER
Alma Potschke is a cultivar of New England Aster with bright rose pink flowers. Height 36" – 48"

Woods Pink has yellow-centered pink flowers. Clump forming habit with woody stems. Likes well-drained soil, full to part sun. Attract bees, birds, butterflies. Height 10" - 12"

ASTILBES
Black Pearls has dark green, coarsely textured foliage with large purple flower plumes on sturdy stems. More heat and drought resistant. Height 20" - 28"
Delft Lace has blue-green foliage with panicles of peach-pink flowers. A vigorous grower and more sun tolerant. Height 24" – 28"

BUDDLEIA (Butterfly Bush)
Shrub type plant blooms late summer, butterfly magnet. All grow 2.5 to 4 feet depending on soil & light. Attracts bees, birds, butterflies.
Magenta Munchkin – fuchsia red flowers
Gold Drop – gold foliage, purple flowers
Prince Charming – bright pink flowers

CLEMATIS (Donahue Collection and Varied)
Various color flowers. Grows in full sun – Bloom May – June. Height 7' – 9'

ECHINACEA (Coneflower)
Panama Red Red daisy-like flowers. Blooms earlier and lasts thru fall. Height 12" – 14"
Paradiso Super Duper **LIMITED QUANTITY**
Double-pleated rose-colored flowers Height 36"
Pow Wow Wild Berry Large rose-purple flowers, continuous bloom without deadheading. Height 20"-24"

FERN *Dryopteris* (Jurassic Gold)
Vase-shaped fern with orange fronds fading to golden yellow and then turning green. Prefers moist soil and full shade. Height 18" – 24"

GERANIUM *maculatum* (Cranesbill) **LIMITED QUANTITY**
Huggy Bear--Large chocolate-red foliage with pink-violet flowers in spring. More disease resistant and sun tolerant. Grows in moist, well-drained soil in full to partial sun. Height 18**"**

HAKONECHLOA (Japanese Forest Grass)
Slow-growing grass, prefers partial shade. Combines well with Astilbe & Hosta.
All Gold - Long arching stems with golden yellow leaves. Height 14" – 16"
Aureola – Golden leaves with narrow dark green margins. Height 18"

HEUCHERAS (Coral Bells)
Black Forest Cake – LIMITED QUANTITY - Chocolatey foliage with cherry-red flowers. Blooms early summer. Great for containers. Height 6" – 12"
Indian Summer Silverberry – Silver-gray foliage with burgundy undersides and pink flowers. Height 16" – 24"
Marmalade – Pumpkin to rusty red foliage with matching reddish flowers. Height 10"

HOSTA
Earth Angel – A large sport from Blue Angel. Blue-green leaves with wide creamy white margins & lavender flowers. Can grow 5' across – Height 30"
Stained Glass – Medium size hosta. Golden leaves with dark green margins. Variegation starts early & lasts through growing season. Deep veins give it a stained glass look. Height 15"

IRIS *Ensata* (Japanese Iris) Dinner Plate Harlequinesque Showy white flowers splashed with blue & fuschia – bright yellow throat. Prefers moist soil. Height 32"

LILIUM (LA Hybrid lily-SPECIALTY)
Apricot Fudge--3" Rose-shaped peachy apricot flowers with chocolate- brown anthers. 5 – 7 flowers per stem. Full to part sun. Height 24" – 36"

MONARDA (Bee Balm)
Sugar Buzz Pink Frosting Pastel pink flowers, above average resistance to powdery mildew. Height 16 - 24"

PAEONIA (Itoh Peony)
Itoh peonies are a cross between garden and tree peonies. They produce immense flowers like tree peonies. Do not cut to the ground because lower stems have next year's buds.
Bartzella has yellow flowers that can vary from double to semi-double. Height 34"
Cora Louise – large white flowers with lavender centers. Height 30 – 36"
First Arrival – 8" ruffled lavender-pink flowers. Height 24" – 36"

PAEONIA (Garden Peony)
Command Performance – Full double cardinal red flowers with spicy fragrance. Height 30" – 32"
Fantastic – Rose-pink outer petals with white tufts inside. Late spring/early summer blooms. Height 30" – 36"

PULMONARIA (Lungwort) **LIMITED QUANTITY**
Shrimps On The Barbie--Large deep shrimp-pink flowers with silver spotted foliage. Blooms in spring, full to partial shade. Height 10"

SEDUMS (Stonecrop) Tall & Short Varieties
Banana Split – Great contrast between dark gray-purple foliage (like chocolate sauce) and creamy yellow flowers (like the banana), thus a Banna Split. Height 20"
Sunsparkler Firecracker – Cherry-red foliage with pink flowers. Height 6" – 8"
Sunsparkler Lime Zinger – Lime-green leaves with cherry-red edges & pink flowers. Height 6" – 8"

THALICTRUM (Meadow Rue)
Lavender Mist--Bluish-green, fern-like, upright foliage with loose sprays of lavender flowers blooming in July. Grows in rich, moist soil in part shade to part sun. Attracts butterflies. Trim back by half in May to create a fuller plant. Height 36" – 60"
